

TECHNICAL DATA SHEET

TECTANE ADHESIVE SPRAY

Adhesive Spray solves all minor adhesive problems in the field of motor vehicle technology, trade, modelling, Do-it-yourself, hobby and household.

USES

Adhesive Spray is suitable for sticking together:

- paper, cardboards and cards, wood, thin veneer
- cork, leather, textiles
- material, such as Moltopren
- rigid expanded polyurethane (e.g. Styropor)
- rubber and foam rubber
- plastic foils (except for PVC and polyethylene)

Adhesive Spray: the instant adhesive in an aerosol with instantaneous adhesive strength and versatile applications. It combines light materials with each other.

The adjustable spray head for low, medium or much flow allows an economic and right-on-the-spot use in all applications.

- clean, fast, simple in use
- instant adhesive strength
- versatile applications

PACKAGING: 400ml aerosol

PREPARATION

Shake the aerosol vigorously before use. The surfaces to be treated should be fat-free, dry, clean and free from adhesive residues.

APPLICATION

On non porous surfaces, apply Adhesive Spray on both sides and let it air for about 15 minutes (20°C). After the airing (when the adhesive is no longer tacky when touching it), join the surfaces together applying maximum pressure. On porous surfaces, apply Adhesive Spray on one side only and join the surfaces together immediately by pressing hard. Spraying distance approx. 20-25cm. To avoid blockage of the nozzle, turn the aerosol up after use and spray until no more adhesive escapes from the nozzle.

HEALTH & SAFETY

EXTREMELY FLAMMABLE IRRITANT DANGEROUS FOR THE ENVIRONMENT

Extremely flammable. Harmful if swallowed. Harmful to aquatic organisms, may cause long term effects in the aquatic environment. Repeated exposure may cause skin dryness or cracking. Vapours may cause drowsiness or dizziness. Do not breathe aerosol. Avoid contact with skin and eyes. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. If swallowed, seek medical advice immediately and show this container or label. Use only in well ventilated areas. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Buildup of explosive mixtures possible without sufficient ventilation. Keep out of the reach of children.

LIABILITY

The information given is the result of our tests and experience and is believed to be accurate and reliable. However, as Siroflex Limited cannot know all the uses its products may be put to, and as application methods are out of our control it is the users responsibility to determine suitability of use.
