

# TECHNICAL DATA SHEET

## *TECTANE ENGINE START SPRAY*

Engine Start Spray makes petrol and diesel engines start immediately. Applies easily on engine and battery preventing the carburettor from getting frozen.

### **USES**

Engine Start Spray is mainly applied in cars, lorries and engines of all sorts used in industry, agriculture and spare-time activities. Its application is particularly important in engines that are not often used.

**PACKAGING:** 400ml

### **APPLICATION**

Spray directly into the air filter or the suction pipe and start immediately. In petrol engines, accelerate only a little. In diesel engines, give full speed without pre-heating. Don't spray it on sparking plugs or hot surfaces. In very low temperatures below freezing, apply it again several seconds after the first ignition. The starting procedure becomes easier with the help of a second person or a remote control since the engine can then be started while spraying.

### **HEALTH & SAFETY**

**EXTREMELY FLAMMABLE      HARMFUL**

Extremely flammable. Harmful if swallowed. Harmful to aquatic organisms, may cause long term effects in the aquatic environment. Repeated exposure may cause skin dryness or cracking. Vapours may cause drowsiness or dizziness. Do not breathe aerosol. Avoid contact with skin and eyes. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. If swallowed, seek medical advice immediately and show this container or label. Use only in well ventilated areas. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Buildup of explosive mixtures possible without sufficient ventilation. Keep out of the reach of children.

### **LIMITATIONS**

Do not spray it into eyes. Avoid contact with mucous membranes and unnecessary breathing in of vapours. Use it only in the open air.

### **LIABILITY**

The information given is the result of our tests and experience and is believed to be accurate and reliable. However, as Siroflex Limited cannot know all the uses its products may be put to, and as application methods are out of our control it is the users responsibility to determine suitability of use.
