

# TECHNICAL DATA SHEET

## ***TECTANE INVISIBLE GLOVE***

Invisible Gloves serves as protection and care of the hands in industry, trade and hobby.

### **USES**

Invisible Glove protects the hands against different media like paints, hydrocarbon solvents, adhesives, resins, tar, grease, oil, thin acids and alkalis etc. Invisible Glove produces a protective film that prevents the dirt getting in contact with the skin.

Invisible Glove contains no silicone. It dries without any influence on the breathing of the skin. The product does not leave finger prints behind on lacquered or galvanised surfaces.

**PACKAGING:** 400ml aerosol

### **PREPARATION**

Shake the tin well before use.

### **APPLICATION**

Spray a small quantity of foam the size of a walnut on your hand. Rub the foam vigorously in your hands. After drying, the hands are protected against dirt.

### **FINISHING**

After work wash the protective film and dirt away with water. It is the user's responsibility to dispose of empty packaging correctly.

### **HEALTH & SAFETY**

#### **EXTREMELY FLAMMABLE**

Do not breathe aerosol. Use only in well ventilated areas. Dispose of this material and its container to hazardous or special waste collection point Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Keep out of the reach of children. Build-up of explosive mixtures is possible without sufficient ventilation

### **LIABILITY**

The information given is the result of our tests and experience and is believed to be accurate and reliable. However, as Siroflex Limited cannot know all the uses its products may be put to, and as application methods are out of our control it is the users responsibility to determine suitability of use.
