

TECHNICAL DATA SHEET

TECTANE SILICONE SPRAY

Tectane Silicone Spray is a fat-free lubricant, protective and parting agent as well as a conditioner for plastics, wood, rubber and metals. It is a none hardening clean lubricating film, which has high resistance to temperatures up to 250°C in closed systems and up to 150°C in contact with air. At temperatures above 150°C the viscosity changes because of oxidation. Also protects from oxidation and corrosion and is water-repellent. Silicone Spray has a wide range of applications owing to its properties.

USES

Silicone Spray

- prevents the accumulation of adhesive residues on presses and guides
- prevents goods from adhering to conveyor belts, grooves, guideways and slides
- keeps rubber parts in good condition, they do not freeze or adhere to other objects
- plastic parts are restored
- makes sunroof and seat rails slide more easily
- excellent parting agent in moulding and injection moulding
- protects electric contacts from moisture
- makes jammed and squeaking parts run well again
- suitable as an assembly aid with tube connections

PACKAGING: 400ml aerosol

APPLICATION

Shake the aerosol vigorously before use. Clean and degrease the surface to be treated, then spray it from a distance of approx. 20-30cm and rub the substance in with a soft cloth.

HEALTH & SAFETY

EXTREMELY FLAMMABLE

Harmful to aquatic organisms, may cause long term adverse effects in the aquatic environment. Do not breathe aerosol. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. If swallowed, seek medical advice immediately and show this container or label. Use only in well ventilated areas. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Buildup of explosive mixtures possible without sufficient ventilation. Keep out of the reach of children.

LIABILITY

The information given is the result of our tests and experience and is believed to be accurate and reliable. However, as Siroflex Limited cannot know all the uses its products may be put to, and as application methods are out of our control it is the users responsibility to determine suitability of use.
