Technical Data Sheet

SX Accessories Cartridge Cut
Small cutting tool

Product Description
A simple to use small cutting tool containing 1 small carbon blade on the internal bore for cutting cartridge nipple, and 1 slightly larger stainless blade on the side with intergral slider for trimming cartridge nozzles. Body made from high impact styrene, slider made from acetyl.

Benefits
- Simple and safe to use

Applications
The Cartridge Cut tool safely opens cartridges accurately and safely trims the cartridge nozzle to required width.

Directions Of Use
Before use: Remove safety insert and set aside for replacement after use. Step 1: Simply slide and click the cartridgecut tool into place. Step 2: Rotate once in the direction of the arrows and the cartridge will be cut open. Step 3: To trim the nozzle insert into the guillotine to the required width. Step 4: Press firmly and the nozzle will be accurately and cleanly trimmed. After use: Always replace safety inserts. HEALTH & SAFETY - CAUTION: Contains sharp blades. Use correctly. Keep away from children and animals.
